Colour System

Brand palette

Token	Hex	Usage
Cream · Background	#F2EAE3	Page background, screen surface, nav bar
Sand · Dividers	#D8CFC8	Row dividers, borders, input borders
Stone · Disabled	#B5A99E	Disabled text, placeholder text, icons
Bark · Secondary text	#3A2E28	Secondary labels, subtitles
Forest-50 · Tint	#E8F4E9	Tinted backgrounds, Zuri pill bg
Forest-200	#A8CFA9	Light border, avatar ring
Forest-400 · Hover	#4A8C50	Hover state, active secondary
Forest-600 · Active	#2D5E30	Pressed state, strong border
Forest-800 · Primary	#1C3820	CTAs, nav active, call screen bg
Forest-900 · Deep	#0E1E10	Active call background overlay

Semantic colours

Role	Hex	Background	Used for
Success	#1C7A3E	rgba(28,120,62,0.10)	Online · Active call · Credit · Incoming
Warning	#B7651D	rgba(183,101,29,0.10)	Low balance · On hold · Suggestion badge
Danger	#C0392B	rgba(192,57,43,0.10)	End call · Missed · Muted · Debit · Error
Neutral	rgba(28,56,32,0.50)	rgba(28,56,32,0.06)	Secondary text · Disabled state · Muted icons

Avatar colour system · deterministic from display name initial

Name	Hex	Label	Example initials
Indigo	#7B68D9	A, H, O, V	YH

Coral	#E74C3C	B, I, P, W	ET
Teal	#2E86AB	C, J, Q, X	MK
Amber	#D4845A	D, K, R, Y	TL
Purple	#8E44AD	E, L, S, Z	AL
Forest green	#1C7A3E	F, M, T	BT
Red	#C0392B	G, N, U	SR
Slate	#546E7A	Numbers / symbols	+251

02

2 typefaces · 5 roles · strict hierarchy

Typography

Typefaces

Typeface	Role	Weights	Used for
DM Serif Display	Display	Regular (400)	Screen titles, caller name, contact names, balance figures, section headings
DM Sans	UI text	Light 300 · Regular 400 · Medium 500	Buttons, labels, metadata, captions, section labels, status text, all interactive elements

Type scale

Role	Typeface	Size	Weight	Used for
Screen title	DM Serif Display	28sp	Regular	Wallet, Contacts, Dial, Settings
Balance / figure	DM Serif Display	22–32sp	Regular	\$4.88, 04:23, Yonas Hailu (greeting)
Contact / call name	DM Serif Display	14–15sp	Regular	All list row primary labels
Button / CTA label	DM Sans	13–15sp	Medium 500	Primary and secondary action buttons
Body / secondary label	DM Sans	12sp	Regular 400	Subtitles, phone numbers, descriptions
Metadata / caption	DM Sans	10–11sp	Light 300	Timestamps, durations, per-minute rates
Section label	DM Sans	10sp	Medium 500 · CAPS · 0.1em	TODAY, FAVOURITES, RECENT CALLS

03

Tabler Icons outline · Never filled variants

Icon System

Icon sizing rules

Context	Size	Colour — inactive	Colour — active
Bottom navigation tab	20px	<code>rgba(44, 74, 46, 0.28)</code>	<code>#1C3820</code>
In-call control button	22px	<code>rgba(242, 234, 227, 0.65)</code>	<code>#F2EAE3</code>
Row inline indicator	16px	<code>rgba(28, 56, 32, 0.40)</code>	<code>#1C3820</code> / <code>#C0392B</code>
Header icon button	17px	<code>#1C3820</code>	<code>#1C3820</code> darker
Decorative / empty state	28–32px	<code>rgba(28, 56, 32, 0.22)</code>	N/A

Icon inventory

Icon name	Category	Used for
<code>ti-clock</code>	Navigation	Recents tab
<code>ti-users</code>	Navigation	Contacts tab
<code>ti-wallet</code>	Navigation	Wallet tab
<code>ti-settings</code>	Navigation	Settings tab
<code>ti-phone-plus</code>	Navigation	Centre FAB — start new call
<code>ti-arrow-left</code>	Navigation	Back button on sub-screens
<code>ti-phone</code>	Call	Call CTA in contact rows and ended summary
<code>ti-phone-off</code>	Call	End call button (danger red)
<code>ti-phone-outgoing</code>	Call	Outgoing call indicator in history
<code>ti-phone-incoming</code>	Call	Incoming call indicator in history
<code>ti-phone-missed</code>	Call	Missed call indicator (red)
<code>ti-phone-calling</code>	Call	Dialling / ringing state
<code>ti-microphone</code>	In-call	Mic active / unmuted
<code>ti-microphone-off</code>	In-call	Mic muted — red treatment

ti-speakerphone	In-call	Speaker / earpiece toggle
ti-player-pause	In-call	Hold call
ti-player-play	In-call	Resume from hold — amber treatment
ti-dialpad	In-call	Open DTMF keypad overlay
ti-video	In-call	Video call upgrade
ti-bluetooth	In-call	Bluetooth audio device
ti-user-plus	Contacts	Add contact — in headers and rows
ti-user-question	Contacts	Unsaved contact avatar placeholder
ti-search	UI	Search bar leading icon
ti-adjustments-horizontal	UI	Filter button in search bar
ti-x	UI	Clear search / dismiss
ti-backspace	Dialpad	Delete last dialled digit
ti-lock	Wallet	Security signal on payment button
ti-credit-card	Wallet	Payment method icon
ti-world	Wallet	Rates lookup button
ti-download	Wallet	Export transaction history
ti-wifi-off	Network	Poor network warning in active call
ti-check	State	Selected state — payment method, confirmation
ti-bulb	State	Predictive tip / insight banner
ti-alert-triangle	State	Warning banner — poor network, low balance

04

Every reusable element · all states · exact dimensions

UI Components

Buttons

Variant	Height	Radius	Background	Label colour	Usage
Primary	46–50dp	22px pill	#1C3820	#F2EAE3	Main CTA — Call now, Pay, Continue
Secondary	38–44dp	22px pill	Transparent	rgba(28, 56, 32, .7)	Alternative action — Add contact, Import
End call	58dp circle	50%	#C0392B	#FFFFFF	Terminate active call
FAB	44–48dp circle	50%	#1C3820	#F2EAE3	New call — elevated –18dp above nav bar
Icon button	32–36dp circle	50%	rgba(28, 56, 32, .07)	#1C3820	Header actions — add, search, back
In-call control	56–58dp	18–20px	rgba(255, 255, 255, .08)	rgba(242, 234, 227, .70)	Mute, speaker, hold, keypad
Danger text	32dp	8px	Transparent	#C0392B	Report quality, destructive actions

Avatars

Variant	Size	Shape	Badge	Context
Header profile	36dp	Circle · 50%	Online dot 9dp green	Screen header — own profile
Contact list	42–44dp	Circle · 50%	Flag 16dp or Zuri-Z 15dp	Contact and recent rows
Favourite strip	48–52dp	Circle · 50%	Online 11dp or Zuri-Z 14dp	Horizontal recent strip
Active call	80–100dp	Rounded rect 26–34px	Pulse rings (animated)	Call screen centre piece
Call ended	64dp	Rounded rect 20px	None	Call summary screen

Unsaved contact	42dp	Circle · dashed border	None — shows ti-user-question	Unsaved number rows
-----------------	------	------------------------	-------------------------------	---------------------

Input — search bar

Property	Value
Height	42dp
Border radius	12–14px
Background	#FFFFFF
Border — default	1px solid rgba(28,56,32,0.12)
Border — active	1.5px solid #1C3820
Leading icon	ti-search · 15px · rgba(28,56,32,0.30)
Placeholder text	DM Sans 400 · 13sp · rgba(28,56,32,0.28)
Active text	DM Sans 400 · 13sp · #1C3820
Filter button	28×28dp · 8px radius · rgba(28,56,32,0.06) bg

Status badges & pills

Badge	Background	Border	Text colour	Used for
Active call	rgba(76,175,80,0.15)	1px rgba(76,175,80,0.30)	#1C5C30	Live call status + blinking dot
On hold	rgba(183,101,29,0.18)	1px rgba(183,101,29,0.35)	#8C4D0A	Call paused state
Muted	rgba(192,57,43,0.20)	1px rgba(192,57,43,0.35)	#8C2A1E	Microphone off state
Call ended	rgba(28,56,32,0.07)	1px rgba(28,56,32,0.14)	rgba(28,56,32,.55)	Post-call summary
Filter pill — active	#1C3820	1px #1C3820	#F2EAE3	Selected tab filter
Filter pill — inactive	Transparent	1px rgba(28,56,32,.12)	rgba(28,56,32,.5)	Unselected tab filter

Zuri member	<code>rgba(28,56,32,0.07)</code>	None	<code>#1C3820</code> Bold	Free-call indicator on contact
Most popular	<code>#B7651D</code>	None	<code>#FAEEDA</code> Bold	Top-up amount suggestion

05

8dp base grid throughout

Spacing System

Base grid

Token	Value	Used for
space-1	4dp	Icon-to-label gap · tight internal padding
space-2	8dp	Row internal gaps · button icon gap
space-3	12dp	Card internal gap · component spacing
space-4	16dp	Card padding · section content inset
space-5	20dp	Screen horizontal padding (all screens)
space-6	24dp	Major section separation
space-8	32dp	Page-level vertical breathing

Layout dimensions

Element	Dimension	Note
Screen horizontal padding	20dp	Consistent on all screens
Contact / call row height	56dp min	48dp touch target + 8dp vertical gap
Bottom nav height	56dp + safe area inset	iOS: + 34dp home indicator
Section header height	28dp	10sp label + 20dp inset
Search bar height	42dp	Radius 12–14px
Min tap target	44×44dp	Apple HIG + Android Material
Border radius — pill button	22px	Half of 44dp standard button height
Border radius — card	12–14px	Standard surface radius
Border radius — avatar	50%	Circle on all sizes
Border radius — rounded rect avatar (call)	26–34px	Scales with avatar size
Row divider	1px rgba(28, 56, 32, 0.06)	Starts at avatar right edge
Avatar badge size	9–16dp	Scales proportionally with avatar

06

10 rules that govern every design decision

UX Principles

01 Colour encodes meaning, never decoration

Red = missed calls, muted, end call, debit. Green = online, active, connected, credit. Amber = on hold, low balance, suggestions. Never use colour for visual interest alone — it must always carry semantic meaning.

02 Progressive disclosure — urgent first

Missed calls surface above the list. Low balance banner appears at wallet top. The most action-requiring information is always surfaced before browseable content. Users should never have to hunt for critical information.

03 Every touch target is 44×44dp minimum

No exceptions. This includes call buttons in rows, nav icons, and badges with actions. Failing this causes mis-taps and user frustration on physical devices. Test on actual hardware, not just Figma.

04 Never leave the user in a dead end

Every empty state has a clear primary action. Every error has a recovery path. Every "no results" search offers "dial as number" or "add contact". Dead ends destroy trust and increase support tickets.

05 Reduce cognitive load — translate data into meaning

Flag badges replace "+9" country codes. "\$4.88 = ~40 min" replaces raw balance. "Missed · 23m ago" replaces undifferentiated rows. Always translate raw data into human-meaningful language before displaying it.

06 Inactive controls must look inactive

On-hold screen: mute, speaker, and keypad buttons are 40% opacity. Users must never be uncertain whether a control is interactive. If a control cannot be used, it must visually communicate that state clearly.

07 Surface trust signals at the point of friction

Lock icon on pay button. Privacy note on contact sync ("hashed — never stored"). Transaction reference numbers on top-ups. These appear exactly when users are most anxious — not buried in settings.

08 Contextual CTAs beat navigation

Rate lookup ends with "Call Ethiopia now". Call summary offers "Call back". Top-up confirmation shows new balance preview. Each screen ends with the most logical next action — never force the user to navigate back.

09 WCAG 2.1 AA compliance throughout

Minimum 4.5:1 contrast for body text, 3:1 for large text. All interactive elements require accessible labels. Animations must respect prefers-reduced-motion. VoiceOver (iOS) and TalkBack (Android) must be fully navigable.

10 Tone is warm, not clinical

"Your network" not "ALL CONTACTS". "Good morning" persists even on empty screens. "~40 more minutes" not "\$4.88 remaining". The app should feel like a knowledgeable friend, not a billing management dashboard.

Quick do / don't reference

Do	Don't
Use DM Serif Display for all primary names and display figures	Use DM Serif for buttons, labels, or metadata — that's DM Sans
Show country flag badges on unknown number avatars	Show "+9" or country code prefix as avatar content — meaningless to users
Convert balance to minutes at the user's most-called destination	Show raw dollar balance without context — users think in calls, not cents
Use the Zuri "Z" badge to mark contacts callable for free	Treat all contacts the same — free vs paid is critical cost information
Group controls in a 4-column grid for thumb-zone access	Use more than 4 in-call control buttons — information overload under stress
Show the new balance before confirming a top-up payment	Confirm payment without showing what the user will have — breaks trust
